STARRY NIGHT

Sudipta Mishra
Research Scholar,
Department of English,
Commonwealth Vocational University,
Tonga

=====***=====

Oh, I can't wait to behold such a celestial night,
Where we could glide through this silvery site

Pearl-like sky adorned with icy-white dust bewitches my insane spirit
Down in the memory lane, I can only imagine your velvety hands clasped in mine
creating an eternal delight

I just want to delve deep into the maze of that mesmerising night
Where the hues of the bluish night flickered into my life

By evading the senses of this mortal world,
We walked into the isle of our imagination where stars only witnessed our reunion.

With the heavenly presence of the curious moon
We, again and again, embraced the divine celebration

Every time I watch the enticing sky flashed with diamond-like stars
I begin to weave dreams of filming our celebrated nights oozing with an indomitable
desire!!!
